

Application No. 10/801,085
Response dated July 18, 2006
Reply to Office action dated 04/18/2006

REMARKS

Record of Interview:

The undersigned thanks the Examiner for the courtesy of a telephone interview on July 17, 2006. The undersigned discussed with the Examiner the Examiner's description of the Status of the Claims (Office action dated 04/18/2006, pages 2 and 3). Specifically, the parties discussed the Examiner's definition of the scope "m, n and p" of the elected subject matter and of the scope thereof excluded from the scope. Specifically, excluded from the scope are compounds and compositions wherein "m is not 1" and "n or p are not 0." Accordingly, since each of m, n and p are selected from 0 or 1, compounds and compositions within the scope are those wherein m is 0 and n and p can each be either 0 or 1.

Amendments:

Claim 1 is amended herein to exclude subject matter not within the scope of the elected subject matter as defined by the Examiner in the Office action of 04/18/2006. Specifically, in Claim 1 presented herein, m is 1, n is 0 and p is 0. Other variables have been amended to be within the scope of the elected subject matter.

Claims 2 and 3 are amended to solely to provide greater clarity, specifically to make clear that the compound is selected from the group of recited species (e.g., one, two, three, and four).

Claim 8 is amended to correct the spelling of suppositorie to suppository.

Claim 9 to 19 inclusive are listed as "withdrawn." Applicants note, however, that according to M.P.E.P. 821.04, Rejoinder, process claims which depend from or otherwise include all the limitations of allowable product claims will be rejoined with such product claims when the same are found allowable. Accordingly, since no statutory rejection of the product claims has been applied, Applicants respectfully solicit rejoinder of the process claims.

Application No. 10/801,085
Response dated July 18, 2006
Reply to Office action dated 04/18/2006

The requested amendments introduce no new subject matter or any matter not supported by the application as filed.

Double Patenting Rejection:

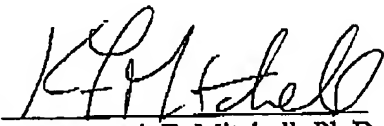

Applicants note that a terminal disclaimer may be presented to overcome the non-statutory double-patenting rejection. Applicants respectfully request that the issue of double patenting be held in abeyance until allowable claims have been agreed upon.

Non-elected subject matter:

Applicants expressly reserve the right to present claims to non-elected subject matter in one or more divisional or continuation applications.

Respectfully submitted,

Dated: July 18, 2006
